

Dear clients and friends of Tillie Lake Veterinary Clinic,

As some of you may already know, after 14 years of ownership, Dr. Russ made the decision to sell Tillie Lake Veterinary Clinic late last year. This was not something he took lightly, but after much discussion with his wife and family, he truly felt that it was the best decision for them all at this time. Dr. Russ fully intends to continue to serve you and your pets as an associate veterinarian at TLVC for the foreseeable future, but he is happy to pass the baton, so to say, to the new owners, who he feels are more than capable of carrying on TLVC's mission to provide the highest level of care to your pet.

Here are a few words from our new owners, Dr. Jennifer Stephani, and Ammber King, CVT:

*Dr. Jen and her chihuahua Sophie*

“My name is Dr. Jennifer Stephani, and I joined the TLVC family in April of 2017. I grew up in the Waukesha area, but have been a proud resident of Jackson since 2007. I earned my undergraduate and veterinary degrees at the University of Wisconsin-Madison, and have been a practicing veterinarian since 2006. I completed a yearlong internship at a bustling referral clinic in northern Illinois, and have worked as an associate and relief veterinarian in the Southeastern Wisconsin area since. I have also attained certification from the prestigious Chi Institute, where I gained the skills and training necessary to practice Animal Acupuncture and Eastern Herbal Medicine. My hope is that my knowledge of both Eastern and Western Medicine will allow me to offer the best possible care to our clients and their pets. I am excited to take this next step in my career, and look forward to serving you.”

*Ammber and her plott hound Rocksie*

“My name is Ammber King, and I also joined the TLVC family in April of 2017. I grew up in the Mukwonago area, and began my career in veterinary medicine roughly 18 years ago. I became a Certified Veterinary Technician in 2006, and have worked in several areas of small animal medicine including general practice, emergency medicine, toxicology, dermatology, internal medicine, and wildlife rehabilitation. Though my primary responsibility is practice management, I am still a practicing technician, and I believe that my experience and background will help us provide exceptional care to our patients. I am excited to work alongside the amazing doctors and staff at TLVC, and proudly serve our wonderful clients.”

We would all like to thank you, our clients, for your continued support. We are looking forward to offering new, state of the art products and services to our patients, and we are all excited to continue offering the best quality care possible as we continue to grow.

Sincerely,

Your friends at Tillie Lake Veterinary Clinic
